## EXPERIENCE QUALITY EXPERTISE

TRUSS REPAIR & REPLACEMENT  
TRUSS REINFORCEMENT  
ROOF STRUCTURE INSPECTION  
SHORING & RAISING OF ROOFS & FLOORS

We are recognized for our work in **Bowstring** and **Plate Trusses**, **Structural Shoring** and the **Replacing of Beams and Columns**. We have broad experience in the **repair of all types of roof and wall structures** including the **shoring and raising of roofs and floors**. We provide estimates on tightening bolts and replacing cracked or rotted structural members. Minor maintenance can prevent extensive repairs and assure continued safety.

Service with quality since 1940

**Staalsen** IS AVAILABLE TO PROVIDE INSPECTIONS AND ESTIMATES FOR YOUR SHORING, TRUSS AND COMMERCIAL CONSTRUCTION NEEDS.

Our know-how and the size of our company, allow us to meet each customers' unique needs while devoting attention and priority to every job. Our union tradesmen are experienced and skilled in structural shoring and truss work. Our project managers are well versed in working with customers to meet the challenges and uniqueness required in truss and shoring work. At Staalsen, we schedule our work to keep our customers in business. We are adept at working

in occupied spaces, knowing the importance of keeping a business open and running while in the repair process.

As a company we take pride in our quality workmanship, superior service, competitive pricing, and excellent client-contractor relationships during and following the construction process. Contact us at: **Staalsen Construction Company, Inc.** 773-637-1116
